**CLEAN VERSION OF CLAIM 11**

*[Handwritten marks: a large X over the first line and initials "JL" below it.]*

11. A method of operating a printing unit in an offset machine, the printing unit having a doctor blade chamber device, the method comprising the steps of: disengaging an inking unit from contact with a cylinder when the doctor blade chamber device of the printing unit is applying lacquer; and engaging the inking unit to be in contact with the cylinder when the doctor blade chamber device of the printing unit is applying water.
